Farmerlist Irrigation FLI

For producer groups practising irrigation in areas with scarce water resources

Table to be filled in individually for each producer using irrigation

To be completed **by the responsible person of the project prior to the inspection**, and to be verified by your Naturland contact person.

Producer Name / Code	Region	Total area of each farmer (ha)	Irrigated area of each farmer (ha)	Number of irrigated plots	Source(s) of irrigation water (e.g. groundwater, surface water...)	Number of all water sources	Types of irrigation facilities (e.g. wells (private/public), water pumps...)	Type of proof of legal water use (for irrigated areas > 1 Ha)	Irrigation system (e.g. drip irrigation, etc.)	How is water consumption monitored on the farm? (e.g. water meter, water bills ....)	Total water use of the farm/year (m^3)	Water use per ha/year (m^3)	Irrigated crops
Example 1	name of region	12,52	13,60	2	groundwater + desalinated	2	private well + desalination plant	Concession of Hydrographic Confederation and Concession of offical irrigators' association	Drip irrigation	water meter	45.000	3309	lemon
Example 2	name of region	1,25	0,85	1	superficial water	1	water conduction from the creek	not relevant	sprinklers	water meter	2.300	2705	apricots
